THULAWA NEWS

BRAND GUIDELINES

01

The idea

A scale that weighs every side before the reader decides.

NAME

තුලාව (Thulawa) means *the scale*, the instrument that weighs. The brand promise is to put many reports of the same story side by side, show how each one leans, and let the reader judge.

TAGLINE

අසමතුලිත ලොකයකට සමතුලිත පුවත්

Balanced news for an unbalanced world. The words තුලාව and සමතුලිත share the same root, so the tagline echoes the name.

VOICE

Calm, exact, fair. Report what each source says and how; avoid loaded words and never take a side in our own copy.

THE SEAL

An engraved crest: a fountain pen forms the post of a balance, with two equal pans, a sunburst, and a wreath of Sri Lankan paddy. The pen stands for journalism, the level beam for balance, the paddy for Sri Lanka.

02

Logo: the seal

Primary mark. Built from three layers so it can be edited without redrawing.

1 · Ring

2 · Illustration (AI-assisted)

3 · Lettering

CLEAR SPACE

Keep empty space around the seal at least equal to the width of the navy ring (about 13% of the diameter).

MINIMUM SIZE

Full seal: 96 px / 25 mm wide. Below that, use the app icon (illustration only) instead.

Lockups and wordmarks

Use the supplied artwork. Never retype the name or tagline.

WEBSITE READING COLOURS

Long reading text stays on the existing paper **#F7F5F0** with ink **#141414**. Brand navy and gold are used for the masthead, links, buttons and accents. Bias colours stay as before: left **#B96D70**, right **#587EAD**, breaking **#A52B26**.

05

Typography

Three display faces for the identity, plus Noto for reading.

NAME	තුලාව	Stick No Bills · Bold 700 Logo name only, never body text.
TAGLINE / SINHALA DISPLAY	අසමතුලිත ලොකයකට සමතුලිත පුවත්	Gemunu Libre · Bold 700 Taglines and short Sinhala headings.
ENGLISH	THULAWA NEWS	Bodoni Moda · Bold 700, +12% tracking English name and English headings.
READING	පුවත් කියවීමට පැහැදිලි අකුරු	Noto Serif Sinhala / Noto Sans Sinhala Article text, UI and long copy.

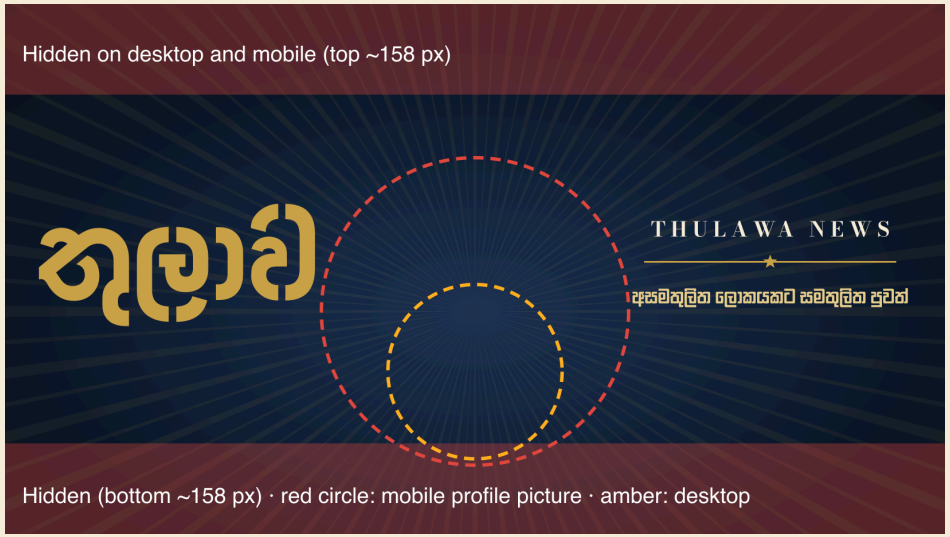

Known font issue: Gemunu Libre draws the vowel ෝ without its hal (ලෝ looks like ලො). The supplied tagline artwork is corrected. When typing Gemunu text live (web or Canva), check words with ෝ or use the artwork.
